LIFE IS DIVERSE!

The child and their family are always the focal point of everything we do and say.

Respect for diversity is our strength:

Each unique child is fully accepted as they are – with their needs, interests and abilities.

Inclusion is an integral part of our education, nurturing and training philosophy. Throughout our daily activities together, each child will find a place to:

- Build confidence and independence
- Feel safe and have clear direction
- Become familiar with their own strengths and weaknesses
- Learn how to get along with others
- Explore their own beliefs and life purpose
- Learn to understand the world and feel secure in it

SIDE BY SIDE.

We offer time and space for individual development:

- Discovering things together
- Exploring capabilities
- Trying to do things for oneself
- Allowing development potential to unfold
- Making full use of one's talent and potential

Our comprehensive development support revolves around individual learning journeys.

Our support and education areas:

- Play and creativity
- Perception
- Language
- Movement
- Language and environment
- Social behaviour
- Belonging

The pedagogy of diversity is our guiding principle:

- As much commonality as possible
- As much differentiation as necessary in individual situations
